INSPECTOR-GEN, FARNSWORTH. Col. Henry J. Farnsworth, Major and Inspector-General U. S. Army, died Monday, Nov. 19. at Fort Monroe, after a painful illness of several months. He was bern in New York July 2, 1837, and was educated for mercantile life. In 1864 he was made Captain and Assistant Quartermaster of volunteers, and served in that capacity (being brevetted Lieutenant-Colonel for faithful services) until Sept. 1, 1867, when he accepted a commission as First Lieutenant in the 34th U. It was too late, however, and he sank rapidly until the end came. Brig.-Gens, Richard C. The body was met at the wharf Wednesday morning, Nov. 21, by the squadron of cavalry from Fort Myer, Maj. Louis H. Carpenter, 5th U. S. Nov. 27 a full general court-martial convened at Fort Bayard, N. M., to try First Lieut. James S. Jonett, 10th U. S. Cav. Mr. Jonett is a resident of Washington, and is a son of that gallant and dearly-beloved veteran, Rear-Admiral James E. Jonett, U. S. Navy, who is now President of the Navy Board of Inspection and Survey. I do not know upon what charges the young man is arraigned, but I can fancy them from his unfortunate past history in the Army. Prior to his entering the Army, nearly 14 years ago, he had sailed with his father on several cruises; but having a fancy for the land service, Admiral (then Captain) Jonett procured him an appointment in the 10th U. S. Inf .. which was serving then in Texas, but in 1877 he was transferred to the 10th Cav. I do not know whether the lawless life of the population neighboring to the military posts at which he served had any effect upon him, but the young man developed a recklessness that put discipline at defiance, and not very long after be had gained his promotion to First Lieutepant a general court-martial sentenced him to dismissal for some grave infractions of Army Regulations and customs. The offenses were so serious that the Executive refused to interfere by mitigating the sentence, and Mr. Jonett ceased to be an officer in the service, April 30, 1885, after having twice before escaped the same fate. He came here again, and seemed at last to have so thoroughly felt his disgrace that his life was thoroughly reformed; so much so that the Military Committees of the Senate and House believed in it, and in recognition of the gailant and distinguished services of the father a special act of Congress was passed last Spring that authorized the President to reappoint young Jouett in the Army with the same rank and date of commission that he held when dismissed just three years before. Unfortunately, it seems to me, the War Department officials. saw fit to place him back in the same regiment from which he had been dismissed, and he was ordered to join it in New Mexico last June. For Admiral Jonett's sake I hope that the boy may escape, but from the composition of the court, in numbers and rank, I fear his Army days are ended for good. The court consists (only two being West Pointers) of the followingnamed officers: Lieut.-Col. Edward P. Pearson, 24th Inf.; Majs. Fred Van Vliet, 10th Cav.; Emil Adam and Tullius C. THE FIRST CALLS.

Gen. R. H. Milroy, the Pioneer in Enlisting and Emancipation. A reader sends us the following, which he claims was the first call for Union troops:

[For the Rensselaer Gazette.]

PREPARE FOR WAR.

RENSSELAER, IND., Feb. 7, 1861. FELLOW-CITIZENS: The glorious flag of our country has been fired upon-torn down by traitor hands and trampled upon by permitted impunity. The sovereignty of our Government has been insulted, treated with contempt, defied, and set aside within its own rightful limits by traitors, led on by disappointed demagogues, whose motto is "rule or ruin." Treaon and armed rebellion have raised their upas beads under strange banners within six of the Southern States of our Union. Shall the flag of our country, the glory and honor of which has been sealed by the blood of a thousand battles, be thus disgraced? Shall the boasted sovereignty of our Government, the foundations of which were laid and established by the wisdom of our forefathers, "to secure the blessings of liberty to ourselves and our posterity," and before which tyrants have trembled, and that has never yet been defied or questioned with impunity, be thus contemned and set aside within our own borders? "Forbid it, Almighty

But now the time has come in which to test the strength of our Government; to determine whether it is a mere rope of sand, that will tumble into discordant fragments upon the first breath of organized treason; and, like Mexico and the States of Central and Southern America, become the scorn and contempt of the great nations of the earth; or whether it is to continue that Government whose gigantic progress is the wonder of the world, has no parallel in history, and whose example is melting the thrones and despotisms of Europe and Asia. Within the next thirty days the imbecile Administration whose pusillanimous conduct has given strength and confidence to this impious treason, will have expired, and a new Administration, pledged that "the Union must and shall be preserved," will have commenced. The new Administration will doubtless require thousands of Union-loving volunteer soldiers to assist in crushing out this rebellion and in restoring the displaced sovereignty of our Government. Volunteers in the Union States should therefore be organized and ready at a moment's warning. It is desired to organize a company of such volunteers in Rensselear. All those who desire to join in this company can do so by giving or sending their names to the undersigned, and as soon as a sufficient number of names are enrolled a meeting will be called for the election of officers. All who love their country, and are ready to lay down their lives for the perpetuation of our glorious Union, are requested to come forward and en-R. H. MILEOY. roll their names.

Also a handbill, reading as follows, which he claims was the first official announcement of the going into effect of the Proclamation of Emancipation:

FREEDOM TO SLAVES.

Whereas, the President of the United States did, on the first day of the present month, issue his Proclamation declaring "that all persons held as Slaves in certain designated States, and parts of States, are, and henceforward shall be free," and that the Executive Government of the United States, including the Military and Naval authorities thereof, would recognize and maintain the freedom of said persons. And Whereas, the county of Frederick is included in the territory lesignated by the Proclamation of the President, in which the Slaves should become free, I therefore hereby notify the citizens of the city of Winchester, and of said County, of said Proclamation, and of my intention to maintain and enforce the same.

I expect all citizens to yield a ready compliance with the Proclamation of the Chief Executive, and I admonish all persons disposed to resist its pesceful enforcement, that upon manifesting such disposition by acts, they will be regarded as rebels in arms against the lawful authority of the Federal Government and dealt with accordingly. All persons liberated by said Proclamation

and ordered to act in accordance with said proclamation and to yield their ready co-operation in its enforcement. R. H. MILROY, Brigadier-General Commanding. WINCHESTER, VA., Jan. 5, 1863.

The Grant Monument Fund.

The models for the Grant monument are drawn on a basis of an expenditure of \$500,000, but the subscriptions to the fund up to date amount only to \$130,000. In the next Congress an effort will be made, it is said, to resuscitate and pass the bill introduced by the late Abraham Dowdney, of New York, appropriating \$250,000 toward the monument.

For some time past the fund has almost dropped out of notice, but now that the election is over Prof. Richard T. Greener, the Secretary of the fund, is sauguine that subscriptions will come rolling in. The Professor has frequently proposed that a fair should be held in aid of the fund, but the proposition has never been favored by the committee.

During next week a meeting of the commit tee will be held and the manner of choosing the models and drawings will be determined upon. Premiums of \$1,500, \$1,000, \$500, \$300 and \$200 will be paid for the five best models.

SCRIBNER'S. A MAGAZINE ME

SCRIBNER'S MAGAZINE FOR 1889

THE completion of the 2d year is signalized by a brilliant number, one-third of the 60 illustrations being

ELIHU VEDDER, J. ALDEN WEIR, WILL H. LOW. W. B. GIRSON,
BRUCE CRANE,
GEORGE HITCHCOCK,
LESTER WALLACK'S REMINISCENCES, Third and concludNISCENCES, Third and conclud-ALFRED KAPPES, JAY TAYLOR, H. TWACHTMAN, M. J. BURNS.

Among the Artists who con-tribute are WINTER IN THE ADIRON-DACKS. By H. W. MABLE. 10 large OLD GLASS IN NEW WIN-DOWS. By WILL H. Low. Hius-trated from the designs of many famous

FRANCIS MURPHY, SANDRO BOTTICELLI, By GEO. ROBERT LOUIS STEVENSON'S SERIAL, NOVEL, A second and ILLUSTRATED POEMS form a and many others.

And four illustrated short stortes: "SQUIRE FIVE-FATHOM." By H. C. BUNNER,
"AT THE STATION." BY REBECCA HARDING DAVIS.
"THREE BAD MEN." BY W. M. TABER.
"THE ROSES OF THE SENOR." BY JOHN J. A-BECKET. The following is a partial list of the features which will appear during the coming year:

THE RAILWAY ARTICLES. During the year these articles, which have helped to bring 25,000 new readers to the Magazine, will be continued. GEN. E. P. ALEXANDER will write of "Railway Management"; EX-POST-MASTER-GENERAL THOMAS L. JAMES, of "The Railway Postal Service"; W. S. CHAPLIN, of "Railway Accidents"; and an article will appear on Safety Appliances, all strikingly illustrated.

THE SERIAL. ROBERT LOUIS STEVENSON'S Serial NOVEL, "THE MASTER OF BALLANT-RAE," which was begun in the November number, will continue through the greater part of 1889. It is the strongest and most remarkable remance he has written; and its masterly character drawing, with its stirring adventure and the continuous and changing excitement of its plot, will increase his already great circle of readers. Illustrated in each number by William Hole.

THE END PAPERS. The brief final papers which during 1888 have been contributed by MR. STEVEN-SON, and have made so many readers turn with special enjoyment to the last pages of the Magazine, will be replaced in 1889 by a not less noteworthy series, contributed this time by different authors from among the most brilliant writers. MR, THOMAS BAILEY ALDRICH writes the first for the January number.

ON ART SUBJECTS. An unpublished correspondence relating to JEAN FRANCOIS MILLET and a famous group of modern French Painters will furnish the substance of several articles, with new and interesting illustrations; a paper by T. S. PERRY, upon the recent extraordinary discovery of Graco-Egyptian Painted Portraits at Fayoum, Egypt, describes one of the most important "finds" in the history of art; MR. CLARENCE COOK'S paper on Natural Forms in Ornament; MR. NAKAGAWA'S on Dramatic Art in Japan, and MR. WILLIAM ELLIOT GRIFFIS'S on Japanese Art Symbols, the illustrative material for these two having been especially prepared in Japan.

ON BOOKS AND AUTHORS. Among the articles is one on SIR WALTER SCOTT'S methods of work, apropos of the collection of his proof sheets belonging to the HON. ANDREW D. WHITE; a paper on the Homes and Haunts of Chas. Lamb; a second "Shelf of Old Books," by MRS. JAS. T. FIELDS, all fully illustrated. FISHING ARTICLES. A group of articles describing the sport in the best fishing grounds in America, will be a feature of the summer numbers. DR. LEROY M. YALE and MR. AYLWIN CREIGHTON will write of the Winninish (the land-locked salmon of Lake St. John, Canada), illustrated by the author and other artists; MR. ROB-ERT GRANT will tell about Tarpon-fishing in Florida; BASS-FISHING will be the subject of a well-known angler's paper; and a fourth article will describe fishing in the EXTREME NORTHWEST-each paper having many and spirited illustrations. PHOTOGRAPHY, ELECTRICITY, MINING. Among the most interesting papers for the year will be a remarkable article by PROF. JOHN TROWBRIDGE, of Harvard University, upon the wonderful developments of Photography-elaborately and curiously illustrated. Also a group upon Electricity in its most recent applications, by eminent authorities; a remarkable article on Deep Mining, with unique illustratious from photographs taken by magnesium flash light, and other interesting papers.

SHORT STORIES will be a feature of Scribner's Magazine in future as in the past. Among the authors who will write are H. C. BUNNER, SARAH ORNE JEWETT, OCTAVE THANET, T. R. SULLI-VAN, ROBERT GRANT, GEÖRGE H. JESSOP, MARGARET CROSBY, J. E. CURRAN, BRANDER MATTHEWS, and many new writers.

IN GENERAL. The publishers of Scribner's Magazine aim to make it the most popular and enterprising of periodicals, while at all times preserving its high literary character. 25,000 new readers have been drawn to the Magazine during the past six months by the increased excellence of its contents (notably the Railway articles), and it closes its second year with a new impetus and an assured success. The illustrations will show some new effects, and nothing to make Scribner's Magazine attractive and interesting will be neglected.

GARFIELDGUARDOFHONOR

The Seventh Annual Reunion of This Society. Twenty members of the Garfield Guard of Honor who, in September, 1881, watched over the body of their assassinated comrade as it lay in state in the Capitol rotunda, met Thursday

night last around the banquet table and celebrated their seventh annual Reunion. The National Hotel, this city, was their place of meeting, and at 6 o'clock the little company of veterans sat down to a carefully-selected, perfeetly-prepared, and well-served continuation of edibles and liquids. Bouquets decorated the table and fragrant boutonnieres adorned the lapels of those present. Before the menu was attention to the eloquent address of the retiring President, Judge J. J. Noah, and then everybody ate, drank, and was merry. The first toast was "Our Country," responded to by Judge Noah. The next sentiment was "The President-elect of the United States," and to this Gen. R. D. Mussey did full justice. "Our Fallen Comrades" was drunk in silence, more than one of those present remembering that

over the old commander's body had responded to the "taps" of the grim trumpeter. Comrade Crittenden, the first commander of the Guard, gave a very interesting account of his settlement at San Diego, Cal., whither he went four years ago to "grow up with the country," and as an evidence of his prosperity he became financially responsible for the appearance of sundry bottles of wine and boxes of cigars. These present were T. T. Crittenden, J. J. Noah, F. A. Seely, J. A. Van Doren, J. C. H. Doing, Alex. Scott, D. W. Houghton, L. P. Williams, L. B. Cook, W. F. Sliney, J. C. Squires, R. D. Mussey, M. T. Anderson, A.

At Reading, Pa., on Thursday last, United States Commissoner Young held William D. Horning, a prominent member of the Berks County Bar, in \$1,000 bail for a hearing in Philadelphia next Monday on a charge of having taken illegal fees for securing a pension for a widow. The Pension Department in Philadelphia is the prosecutor. The pension amounted to \$2,300. A warrant has also been sworn out against Isadore Yeyser, who assisted in the collection of the pension, and who is alleged to have received \$460 as his share, Yeyser cannot be found.

Another Pension Fraud.

The hearing of the pension-fraud case of Edward McCue, Patrick Morrissy and Owen Burns, of South Bethlehem, Pa., was concluded before the United States Commissioner at Eaton, Pa., on Thursday last, and resulted in their being held for trial by the U. S. Circuit Court at Philadelphia. The trial will come off this week.

Veterans' Rights to Peddle.

EDITOR NATIONAL TRIBUNE: The query of M. L. D., Lakeview, Ore., regarding the statute strengthens my belief that a great many comrades may suffer through ignorance of what few laws have been passed in their behalf. Therefore I would suggest that some comrade from each State give the law on hawking and peddling through the column of THE NATIONAL TRIBUNE. It may be the means of helping ome poor comrade to obtain a livelihood. I

Every honorably-discharged soldier who is a resident of this State, and who from wounds or on account of disease contracted while in the military or naval service of the United States, and who on ecount of such disability is unable to procure a velihood by manual labor, shall have the right vithout cost. Provided, That before any such sollier shall be entitled to the benefits of this act, he shall obtain a certificate from an Examining Surgeon of the United States that he is unable to procure his living by manual labor. And he shall also procure a certificate from the prothonotary of any County in this State that he has filed in the office of said prothonotary his affidavit setting forth that he is the bona-fide owner in his own right of all goods, wares and merchandize which e proposes to hawk, peddle and vend; and that be will not engage to sell the same for any other person or persons whatever: And provided further, That the aforesaid certificates, together with such serson's discharge from the military service, or an xemplified copy thereof, shall be full and concluive evidence of such person's right to the benefits of this act.

THE MAGAZINES.

It is pretty well understood that the conductors of Harper's Magazine always intend to issue a Christmas number which shall be not only complete in itself, but arranged on lines somewhat different from those followed during the rest of the year; and the articles in the Christmas number for 1838 were selected, evidently, with this end in view. The result is an issue strong and novel. The originality of its pages is, perhaps, most striking in the short stories (the serial stories all ended in the November number)-as in "The Christmas Story of a Little Church," by Grace King: "Sosrus Dismal," by W. W. Archer, and "The Front discussed the company listened with unbroken | Yard," by Miss Woolson-this last being a daring comparison of Italian and New England natures and ways. In poetry, too, the number is exceptionally good. Artistically, it has never been surpassed. The December Century will contain three

complete stories: "The Third of March," by Julian Hawthorne; "Minc-a Plot," by H. S. Edwards, author of "Two Runaways"; "The Rise and Fall of 'The Irish Aigle," which is the first one of the Irish-American stories by George H. Jessop. There will also be a travel sketch by F. Hopkinson Smith, "A White Umbrella in Mexico," with ten illustrations by the author. The next number of the Century is to contain

Henry Ward Beecher's last manuscript-an uncompleted paper on his trip to England in 1863, which he was writing for the Century War Book the last week of his life. The article is supplemented by a brief paper by the Rev. J. M. Buckley, D. D., who was an eye-witness and hearer of the famous speech which Mr. Beecher Starkweather, F. L. Campbell, Fred. Mack, C. | delivered in Liverpool in 1863 in the presence of a howling mob.

The first step in avoiding mistakes is to find out how we fall into them. Valuable aid in Hamilton, G. W. Ballech, J. E. Weyss, and L. | this direction will be furnished in Prof. Joseph Jastrow's paper on "The Psychology of Deception," which will open the December Popular Science Monthly. As illustrations of his subject the author cites the tricks practiced by conjurers, and the delusions which from time to gain a hold on the public mind.

His campaigns included the Turco-Russian war of 1828 and that of the Crimea, during which he commanded the cavalry division. It was he, who, owing to the misconception of an order received from the Commander-in-Chief, Lord Raglan, commanded the famous charge of the Light Brigade at Balaklava, a feat of arms immortalized by Tennyson's poem. Lord Lucan was one of the best-known figures in fashionable London. In spite of his great age his general appearance was that of a man of 40 years, with his junior, fiat-brimmed hat, straggling whiskers and frock coat tightly buttoned over a thin waist, while his cavalry seat, as he rode in the Row, was perfection. The late Lord took extraordinary care of himself, cating only certain kinds of food, which were weighed out at every meal with scrupulous exactitude. He had a theory that every horse that died under the age of 25 had been killed. and that every man who failed to live to 80 had committed suicide. The only drink besides milk and water that he ever partook of was brandy, which he held to be sovereign in emergencies, and of which, when campaigning, he has been known to drink half a bottle with-

The Earl of Lucan was created a Field Marshal last year.

What Was the Result of the Treatment? EDITOR NATIONAL TRIBUNE: Burnham Wardwell, a resident of Richmond, Va., from 1850 to 1870, was imprisoned in Richmond and

Salisbury during the war, and was paroled from nerewith append the statute law of Pennsyl- | prison. His parole not being respected, he left vania, enacted April 8, 1867 (Pamphlet Law, p. his family and went through the lines to Gen. Butler's headquarters, and served in the Army of the James until the evacuation of Richmond. In 1868 Gen. Schofield gave him charge of the Virginia Penitentiary. His method of treating prisoners was always to call out the good in them and teach them to respect themo hawk, peddle and vend any goods, wares or selves. Reform, and not revenge, was what he nerchandise within this Commonwealth by propering a license for that purpose; to be issued this meet the eye of anyone who was placed under Mr. Wardwell in any institution of which he had charge, they would confer a great favor by stating the effect of kindness over the brutal forces .- S. A "Put and Call."

This is a funny phrase to the uninitiated, but all the brokers understand it. They use it when a person gives a certain per cent, for the option of buying or selling stock on a fixed day at a price stated on the day the option is given. It is often a serious operation to the dealer; but there is a more serious "put and call" than this: when you are "put" to bed with a severe cold and your friends "call" a physician, Avoid all this by keeping in the house Dr. Pierce's Golden Medical Discovery.
